

LONGHI

CALYPSOS

S 400 Giuseppe Viganò

The sun lounger is made from plywood and solid Iroko wood, coloured with special water-based paints. The feet are in 304 stainless steel, galvanised in glossy Brown. The lounger comes with a comfy mattress in medium-density polyurethane foam in a breathable water-repellent white cover to eliminate any dampness. All the fabric covers for both the seats and back cushions are removable.
