

LONGHI

CHARME

X 610 Giuseppe Viganò

Iron backrest frame assembled on a pine seat with elastic webbing, covered with high-density polyurethane foam in different thicknesses. Seat cushion of medium-density polyurethane foam and Dacron. Anatomically-designed backrest cushions of sterilized goose down for greater comfort.

The buttons on the backrest are covered with the same material as the upholstery, or, alternatively, with "Swarovski" crystals. Given the special processing, the leather upholsteries are not removable.

Base of ground metal with matt satin bronze finish.
