

LONGHI

CELINE

U 183 Giuseppe Viganò

The front part of the chair frame is made of solid ash wood stained mink or licorice, and fully upholstered in leather from the sample collection on the remaining parts. Due to the specific manufacturing process, the frame cannot be upholstered in fabric. The seat cushion is made of double-density polyurethane foam covered with polyester fiber, while the backrest cushion is made of curved plywood covered with medium-density polyurethane foam, fixed to the frame by means of a dedicated fastening system. Due to the specific manufacturing process, the covers are NOT removable.
